Thanks Deb

I have a few questions that I could use your help with.
The call with House Ag is on Monday at 3 pm so whatever you can get to me by then would be appreciated.
Let me know if you have questions. Thanks

Michael L. Goodis, P.E.

Dan-

Here is the revised one-pager for aldicarb. In relation to the application itself, the package was deemed complete by the front end. They didn't submit a petition since no tolerance is requested. They cited all of Bayer's data which is non-compensable and they did provide a couple of studies (white papers on how we should be assessing the use – a few for EFED and a couple that were sent to HED), but all of the supporting data has already been reviewed as far as residue studies, etc. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Marion and Richard may have had initial communications with the registrant where specifics could be added?

Debra
